**Prof. Kulikov Petro
Musiiovich,
Rector of Kyiv
National University of
Construction and
Architecture»
(KNUCA)**

Dear Prof. Kulikov Petro Musiiovich !

The “International Secretariat of G-Global” (hereinafter - the Secretariat), Advisor to the United Nations Economic and Social Council (ECOSOC) and the United Nations Conference on Trade and Development (UNCTAD), “Belt&Road” project partner, expresses its sincere gratitude to You and informs you of the following.

Following the results of the II Belt and Road Forum, the International Project "G-Global" became one of the Main international partners of the Belt and Road project. Moreover, the initiatives of the G-Global project (the Global Silk Road Prize and the Global Silk Road Forum – Mayors Forum) were included in the Final Document of the II Belt and Road Forum, which was signed by the Leaders of 37 states.

In order to implement the points of the Final Document of the II Belt and Road Forum, the Representative Office of the International Secretariat of G-Global was opened as an International Organization in Haikou, Hainan Province, China, and the news portal G-Global is operating on the Chinese platform WeChat.

On June 6, 2021, the Secretariat together with the China Silk Road Group (**strategic partner of the Secretariat in the PRC**) held the opening ceremony of the Nursultan Nazarbayev Science and Innovation Laboratory in Nanjing (PRC).

At this event, the signing ceremony of an addendum to the memorandum of cooperation between the Secretariat and the China Silk Road Group was held, within the framework of which it is planned to open three scientific and innovative laboratories of Nursultan Nazarbayev in major cities of China. Taking into account the high status of the G-Global project (International partner of the Belt and Road project), the main goal of the scientific and innovative laboratories is to conduct large-scale research to effectively connect the Belt and Road and Nurly Zhol projects through the use of artificial intelligence technologies and blockchain.

It is important to note that on **November 2021**, the Secretariat, China Silk Road

Group, Central Southern University (PRC) and 5 universities of Central Asia and the South Caucasus will hold the opening ceremony of Nursultan Nazarbayev laboratory in Changsha (PRC). The main goal of the laboratory will be scientific and innovative research in the field of mechanical engineering, mining and railways.

Taking into account the above, we are delighted to invite You to support the scientific and educational potential of the work of the laboratory of Nursultan Nazarbayev in the city of Changsha (PRC).

Yours sincerely,

Head of the Secretariat
